Visit to Argentina.

---

In another column we publish the promised report of Mr. C. Visser of Barkly East, on his experiences in Argentina, South America. He gives a clear description of the country with which he is much pleased. He however expresses no opinion but leaves the reader to judge for himself. But at the conclusion there is the announcement that the writer has decided to emigrate to that country. All we say about it is that we hope that nobody will follow his example.

*End*
